PROFILE

Dedicated individual with a driven passion for front-end development. Bringing in commitment to delivering meticulously designed applications, with rugged knowledge and experience across the development lifecycle, and confident in making valuable contributions to organizational success. Eager to work in a software company that fosters personal growth, while contributing to projects that improve user experience and accessibility to the web

EDUCATION

University of Portsmouth | Portsmouth

BSc (Hons) Computing | 2018-2022

- Overall grade 2:1 achieved in first and 2nd year of study.
- Key Modules covered during my education; Database Principle, Software Engineering, Web Foundation, and Introduction to Programming.
- Acquired insights to work as a team to build an application from the basic ideas, which I took this experience to achieve building my mobile application as an individual software engineering dissertation work.
- DISSERTATION TOPIC - Memory Mobile Application: BrainBuddy
 - Self-taught Java to be able to produce an interactive mobile application.

WORK EXPERIENCE

CUSTOMER SERVICE ADVISOR | ACCOUNT MANAGER

RioMed Ltd. | Southampton

May 2023 - May 2024

With over 8 months of expertise in swiftly resolving IT Support inquiries, my main focus is on efficient customer issue resolution.

Key Responsibilities:

- Liaising with clients, providing detailed information about the product
- Managing and addressing customer concerns
- Troubleshooting and diagnosing technical issues
- Producing effective documentation
- Configuring software to meet client-specific requirements
- Ensuring tasks are completed within defined Key Performance Indicators (KPIs)

Achievements:

- Within a short employment start, I managed CNWL (*Central and North West London NHS Foundation Trust*) and CAA (*Civil Aviation Authority*), two of the company's largest clients.
- Guided two individuals through mentorship.
